

# ADOBE LIVECYCLE TRAINING

## Learn from Certified Experts

### LiveCycle ES4 Process Management Specialist

This class will feature the new LiveCycle ES4 features including the new HTML forms capabilities and the new HTML Workspace application. As a SmartDoc bonus, you will also see a demonstration of a customized version of the LiveCycle Workspace mobile app on an Apple iPad. This app enables your field workers to take their forms and tasks with them on an Apple iPad. Your field workers can complete LiveCycle HTML forms and workflow tasks even when they are disconnected from the Internet.
