

FAQs and Errata

We will update this file periodically as we find issues in the book.

The Sample Files

Please note, we have updated the Sample Files on these dates:

- January 29, 2010: We added the *SmartDoc Objects* folder to chapter03.
- May 17, 2010: We added the *expenseReport_2.xdp* file to chapter03.

Errata

Page 29

In the section, “Using the Comment and Markup tools” you should use the *confidentialityAgreementExtended.pdf* not the *readerExtended.pdf* sample file. The corrected text should read:

The Acrobat Comment and Markup tools are not normally a feature of Adobe Reader. However, these tools are dormant in the program and can be activated when a Reader extended PDF form is opened. You can see these tools by opening the confidentialityAgreementExtended.pdf file and choosing Tools > Comments & Markup. You will see how these tools are used for document collaboration in chapter 5.

Page 74

On the top of the page, the author mentions to compare your form to the *expenseReport_5.xdp* file. You should compare your form to the *expenseReport_2.xdp* file instead. The corrected text should read:

If you had difficulty with the exercises in this section, you can compare your form to the expenseReport_2.xdp file in your chapter03 folder.
