

## Junior Developer

Launch your career in the exciting and growing world of paperless solutions. We are a leading developer of paperless solutions based on Adobe, Apple, and Google technology. SmartDoc Technologies has created many of the largest and most successful paperless systems for organizations like MetLife, Fidelity Investments and the IRS. We are experts in Adobe AEM, PDF, LiveCycle ES4, Microsoft.NET, Java, and the Apple iOS platform for the iPad and iPhone.

We are looking for talented and passionate developers and programmers with excellent skills in Java/.NET, XML, HTML, and JavaScript.

### Requirements:

- Practical experience with JavaScript
- Experience developing multi-tier enterprise applications with J2EE or .NET
- Good understanding of software development methodology and coding best practices
- Experience with relational databases
- Ability to prioritize and manage multiple tasks in parallel
- Strong work ethic, attention to detail and analysis skills
- Working knowledge of SOA, Web Services, XML, XPath, and XSLT
- Adobe LiveCycle Designer experience is a plus

### Experience and Education:

0-4 years of experience as a Software Developer or a Programmer Analyst. If you are a talented recent college graduate, with a Bachelor's degree in computer science or related field, we encourage you to apply to our company. We are hiring for multiple positions.

### Resumes and Interviews:

Please send your resume to: [resumes@smartdoctech.com](mailto:resumes@smartdoctech.com)

SmartDoc Technologies is an equal opportunity employer and we offer Health Insurance, 401k, paid vacations, annual bonuses and other benefits for all full time employees.

No phone calls please.
