

## **Job Title**

Senior Software Architect

## **Job Summary**

SmartDoc Technologies is a worldwide leader in creating paperless solutions. We have created many of the largest and most successful paperless systems for companies like Fidelity Investments and Merrill Lynch. We are experts in Adobe PDF and LiveCycle ES2, Microsoft.NET and Java, and the Apple iOS platform for the iPad and iPhone.

We are looking for a full-time (40 hours per week) Senior Software Architect to work with our SmartDoc team at 33 Wood Avenue, Suite 600, Iselin, New Jersey 08830. Specific duties will include:

Lead enterprise application development projects with major clients; Perform requirements analysis by reviewing business processes with project stakeholders; Provide technical thought leadership and design solutions; Analyze existing architecture and propose improvements; Create functional and technical specifications for the solutions; Bring in innovative ideas to the paperless solutions and iPad applications; Provide directions and assign responsibilities to team members; Ensure adherence to software development methodology and best practices; Direct testing activities to test functionality, integration and performance; Develop client relationship and create strategic plans.

You will gain valuable experience working with important technologies from Apple, Adobe and Microsoft. You will also gain international project management experience and learn leading-edge PMI techniques for managing an international team.

## **Experience**

Master's degree (or academic foreign equivalent) in Computer Science or closely related discipline and two years of experience in the job offered or in the related occupation of Sr. Client Services Engineer, Senior Architect or closely related occupation. The position also requires two years of experience with document/workflow management solutions, J2EE, and XML.

Please send your resume to our Human Resources Director at the following address:
